UNITED STATES INTELLIGENCE BOARD
SECURITY COMMITTEE

MEMORANDUM FOR: Executive Secretary
United States Intelligence Board

SUBJECT : Review of the Procedures and Standards Within
the Intelligence Community for the Control of
Sanitization and Downgrading of Sensitive
Intelligence

1. Attached for the information of the Board at this time is the initial report of the Security Committee concerning the subject matter. This report was coordinated with the SIGINT, COMOR and GMAIC Committees. As will be noted by the attached report, the COMOR Committee is reviewing the series of recommendations contained in paragraph 9 and for this purpose has set up a special working group. It is anticipated that two months will be necessary to complete this review. It should be further noted that the recommendations concerning communications intelligence set forth in paragraph 10 have been concurred in by the SIGINT Committee. While these recommendations are to be submitted to the Board for consideration, action by the Board should be delayed until COMOR submits its report inasmuch as COMOR also has under consideration certain proposals for uniform definitions involving T-KH and communications intelligence as discussed in paragraph 8.

2. The Security Committee will submit this report to the Board for final consideration when the supplementary report of the COMOR Committee has been completed.
